

## COMPETITION ARRIVAL AND DEPARTURE

In line with recommendations from Basketball Victoria, new conditions regarding the arrival and departure from the Waverley Stadium have now been implemented. These procedures will also apply to all WBA run venues and courts, including primary schools and gymnasiums.

Basketball Victoria's Return to Sport Guidelines can be [found here](#)

### ARRIVAL AND DEPARTURE INFORMATION

BV Return to Sport Framework stipulates a maximum arrival time of 10 minutes prior to your game will be enforced. Please remain in your car or wait outside the front entry until a staff member unlocks the front doors, 10 minutes prior to your scheduled game time.

When entering the facility, players are to make their way straight to their designated court. At the Waverley Stadium, this will be via the clearly marked right-hand lane. Any member paying the game fee or visiting reception must line up via the left-hand lane, maintaining 1.5 metre distances and practicing adequate social distancing at all times.

WBA will close and lock all doors five minutes after games commence. The venue will remain closed until 10 minutes prior to the next scheduled game time. Please ensure you arrive within your 10-minute entry time allocation. If a player is late, a team member inside must find a Biosecurity Officer (BSO) who will be clearly identifiable to assist any late arrivals.

At the conclusion of your match, BSO's and game officials will open the exit doors and all patrons must leave the venue via their designated exit immediately following the game, maintaining social distancing at all times.

### DATA COLLECTION FOR CONTACT TRACING

In line with State Government regulations, WBA must record everyone who enters the WBA run facilities. WBA have chosen CovidComply.com.au to ensure accurate records and multi-court functionality.

For all competitions, junior and senior players listed on the scoring consoles will have their data recorded as taking part in the game. All spectators, scorers, siblings and other visitors not partaking in the match and not listed on the official score sheet must use the CovidComply QR Code to sign in before entry.

Every person entering WBA venues during junior competition will be required to demonstrate to the entry BSO that they have successfully signed in. If a person forgets or does not have their phone on them, the BSO will manually record your information or provide you a sanitized tablet to complete this check in process. The senior competition however will not have an entry BSO checking every person as often it's difficult to distinguish between a player and spectator. Therefore, once games commence the BSO's will visit every court to complete a head count and confirm any persons not on the official score sheet are signed in accordingly.
